Surfacing

Date: May 9th through June 6th, 2020

Place: On-line at SDDOT Website

<http://sddot.com/dot/publicmeetings/default.aspx>

The South Dakota Department of Transportation (SDDOT) will hold an on-line public meeting to present project details and receive public input on the above project. Due to limitations on public gatherings recommended by the Centers for Disease Control, the department is posting project information on the department's website rather than presenting documents at an in-person public meeting. Members of the public may submit questions or comments about the project by completing an online form or providing verbal comments by telephone.

Project information materials will be available on the website for viewing and review.

Information will also be available on the acquisition of right-of-way and relocation assistance. This project is being developed in compliance with state and federal environmental regulations.

Any individuals with disabilities who will require a reasonable accommodation to access the information on the department's website may submit an accommodation request to the department's ADA Coordinator at 605-773-3540 or 1-800-877-1113 (Telecommunication Relay Services for the Deaf).

All persons interested in this project are invited to attend this on-line meeting to share your views and concerns during the public comment period any time between May 9th and June 6th, 2020.

To provide verbal comment or ask additional questions regarding this project, contact Dustin Hamilton, Project Manager, HDR Engineering at (605) 791-6103.
